Why RAIN RFID For Healthcare Asset Management

Most healthcare organizations manage assets manually, using spreadsheets or by sticking notes to equipment. Learn how Impinj can help!

RAIN RFID HELPS

AUTOMATE PROCESS

Impinj allows you to view the status of assets and other items in real-time.

Are your manual processes creating problems?

$3K

Cost per bed to maintain and service mobile devices (1)

21 MINS

Average time per shift nurses waste looking for equipment (1)

42%

Average utilization of mobile devices (1)

10-15%

Supplies reach their expiration date before they are used (1)

RAIN RFID HELPS
